Good feedback from customers

Good feedback from customers

Melanie
 ★★★★★ **Good Value, Easy To Install, Looks Great**
 Reviewed in the United States on March 3, 2024
 I really love this NITOYO Front Grill Mesh for Tesla 2023 Performance Model Y. It was super easy to install (took 5 minutes) and fits my grill great. Once installed, it's not going anywhere. I wasn't sure what to expect looks-wise, but it looks better than the factory look. Hopefully, it will provide added protection and last a long time. The materials seem heavy duty enough and the adhesion is strong. It is molded to the exact shape of the car and just snaps into place. Five stars! Highly recommend it!
